

Dear Bureau Owner:

When Jeff Havens asked me to write a recommendation letter for him, my immediate reaction was “NO! I do not want to share Jeff with anyone else!” I quickly realized how selfish I was being and how important it is for others to hear Jeff’s message.

Last year I featured Jeff’s comedy act in one of my speaker showcases. He was the most requested speaker from the showcase and ended up with the most overall bookings.

Shortly after the showcase, Jeff came out with his new program “Uncrapify Your Life!” Every time I introduce the program to my clients, they absolutely love the concept. At Jeff’s last performance, we had three spinoffs booked before he even got home.

I always enjoy calling my clients for feedback after Jeff’s presentations. One of my clients told me that his program was extremely refreshing. It was nice not having the same syrupy motivational speaker close the conference. All of her attendees went home in a great mood and were truly energized.

Even though I would like to keep Jeff all to myself, I know your audiences will enjoy his witty sense of humor. As a bureau owner, I also know you will appreciate his professionalism.

Please call me at 877-974-6972 or email angela@speakernow.com if you would like any additional information on how great Jeff Havens is to work with!

Best Wishes,

Angela Cox-Weston, President

Dear Jeff,

I am writing to let you know that in all my years of working with speakers, since 1980, I have never seen anyone take off the way you have. I love your energy, your speaking ability, your important messages tucked away in the midst of your humor, and your uniqueness. And last, but not least, I find you to be very fun to work with – a meeting professionals dream.

When you spoke on our showcases, you consistently rated at the top of the list, which is amazing since you were up against some heavy hitters who have been in the business much longer than you have.

Your dad, Rex, must be very proud of you. You are giving him a run for the money. He has been very popular for a long time. Are the two of you ever both speaking at the same event? That would be a hoot.

In this time of economic challenges, it is refreshing to hear you and your messages, and to understand the meaning of your words while laughing so hard your side hurts.

I wish you much success and please feel free to use me as a reference at any time.

Enthusiastically,

A handwritten signature in cursive script that reads "Nancy Lauterbach".
